PROFESSIONAL SUMMARY

Computer Science Engineering student with knowledge of Python, Java, and web development. Interested in building practical software solutions and strengthening technical skills through projects, internships, and hands-on learning. Eager to contribute to software development teams, learn modern technologies, and grow as a software professional.

TECHNICAL SKILLS

Programming: Python, Java

Web Development: HTML, CSS, JavaScript, Full Stack Development

Tools & Technologies: Git, GitHub, VS Code, Firebase

Areas of Interest: Software Development, Artificial Intelligence

PROJECTS

Smart Diary

Personal diary web application concept with diary entries, image uploads, calendar events, mood-related features, dashboard visualizations, settings, and backup/restore functionality.
Technologies: HTML, CSS, JavaScript, Firebase

Expense Tracker

Expense-tracking project focused on recording expenses and calculating total spending.
Technologies: Technologies to be confirmed

Password Generator

Utility project for generating passwords based on available user options.
Technologies: Technologies to be confirmed

EXPERIENCE

Python Developer | Decode Labs — *July 2026 – Present*

Python development internship/experience. Add specific responsibilities or deliverables once confirmed.

Full Stack Engineer | Thiranex — *September 2026 – Present*

Full Stack Development internship/experience. Add specific responsibilities or deliverables once confirmed.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering | Kamala Institute of Technology & Science (KITS) | GPA: 8.2

Intermediate — MPC | SR Junior College

SSC | SR Prime School

CERTIFICATIONS & PROFESSIONAL LEARNING

- Thiranex — Full Stack Development internship/certificate
- Decode Labs — Python internship
- Deloitte — Data Analytics Job Simulation
- Introduction to Programming Using Python
- TCS iON course/certificate (include exact course title when confirmed)
